

Gabriel Ruiz | Resumé

Los Angeles, CA 90034 • 17ruiz17@gmail.com & ruizg@ucla.edu • Website: <https://gabriel-ruiz.github.io/>

Objective

Graduate level statistician and budding machine learning specialist doing work in causal inference and data mining seeking to apply this and related knowledge at your company.

Education

PhD Candidate – Dept. of Statistics, University of California, Los Angeles 2017-current

Advisors: Qing Zhou, Oscar Madrid Padilla

B.S. Statistics, Magna Cum Laude - University of California, Riverside 2013-2017

Publications, Pre-prints and Working Papers

G Ruiz, OH Madrid-Padilla. “Augmenting the estimated conditional average treatment Effect (CATE) function with robust probabilities to assess CATE’s goodness of fit.” **Working paper**, 2021+. [[relevant reference](#)].

G Ruiz, OH Madrid-Padilla, Q Zhou. “A statistically consistent Bayesian network structure learning method for the Linear Non-Gaussian Acyclic Model with parametric errors.” **Working paper**, 2021+. [[relevant reference](#)][[Causal Discovery review slides](#)].

OH Madrid-Padilla, P Ding, Y Chen, **G Ruiz**. “A causal fused lasso for interpretable heterogeneous treatment effects.” **arXiv Preprint**, 2021. [[Link](#)].

M Burkhart, **G Ruiz**. “A strategy for Feature Engineering as a pre-processing step to the [R/S/T/X]-Learner frameworks to estimate the conditional average treatment effect.” **In review**, 2021+.

OA Vsevolozhskaya, **G Ruiz**, DV Zaykin. “Bayesian prediction intervals for assessing P-value variability in prospective replication studies.” **Translational Psychiatry**, 2017. [[Link](#)]

OA Vsevolozhskaya, CL Kuo, **G Ruiz**, L Diatchenko, DV Zaykin. “The more you test, the more you find: The smallest Pvalues become increasingly enriched with real findings as more tests are conducted.” **Genetic Epidemiology**, 2017. [[Link](#)]

Experience

Data Science Intern - Data Science Group in Digital Experience, Adobe Inc., San Jose, CA Summer 2021, Summer 2019

Summer Intern and 2017 GEM Fellow - Perception & Localization Group, Draper Laboratory, Cambridge, MA Summer 2017

President - Highlander Statistics Society (HISS), Student Chapter of the American Statistical Association at University of California, Riverside June 2015-June 2016

Honors

National Science Foundation Graduate Research Fellowship April 8, 2019

Chancellor Rosemary S. J. Schraer Award - 2017 Honors Convocation, University of California, Riverside May 22, 2017

Technical Skills/Miscellaneous

- Programming Languages and Software: R (tidyverse, grf, glmnet, RcppArmadillo, Keras), Version Control, Linux/Unix OS, Python (scikit-learn, numpy, pandas, Jupyter notebooks).
- Fluent in Spanish (Grew up speaking English and Spanish dually).
