

Gabriel Ruiz

Los Angeles, CA

PhD Candidate

ruizg@ucla.edu

Webpage:

gabriel-ruiz.github.io

Graduate-level statistician and machine learning specialist doing research on structural equation modeling and causal inference. Seeking to apply this and related knowledge at your organization.

EDUCATION

PhD Candidate, Statistics, *University of California, Los Angeles*
National Science Foundation Graduate Research Fellow

2017-current

B.S., Statistics, *University of California, Riverside*
Magna Cum Laude, MARC U Scholar

2013-2017

PUBLICATIONS, PRE-PRINTS & WORKING PAPERS

• Structural Equation Modeling

- **G Ruiz**, OHM Padilla, Q Zhou. "Sequential Learning of the Topological Ordering for the Linear Non-Gaussian Acyclic Model with Parametric Noise." **arXiv Preprint**, 2022. [\[Link\]](#)
- **G Ruiz**, OHM Padilla, Q Zhou. "Statistical Guarantees for the Sequential Learning of the Topological Ordering for a Linear Non-Gaussian Acyclic Model with General Parametric Noise Densities." **Working paper**, 2022+.

• Causal Inference

- **G Ruiz**, OHM Padilla. "Augmenting the estimated Conditional Average Treatment Effect (CATE) function with robust probabilities to assess its goodness of fit." **Working paper**, 2022+.
- OHM Padilla, P Ding, Y Chen, **G Ruiz**. "A causal fused lasso for interpretable heterogeneous treatment effects." **arXiv Preprint**, 2021. [\[Link\]](#).
- M Burkhart, **G Ruiz**. "Neuroevolutionary Feature Representations for Causal Inference." **Working Paper**, 2022+.

• Biostatistics

- OA Vsevolozhskaya, **G Ruiz**, DV Zaykin. "Bayesian prediction intervals for assessing P-value variability in prospective replication studies." **Translational Psychiatry**, 2017. [\[Link\]](#)
- OA Vsevolozhskaya, CL Kuo, **G Ruiz**, L Diatchenko, DV Zaykin. "The more you test, the more you find: The smallest P-values become increasingly enriched with real findings as more tests are conducted." **Genetic Epidemiology**, 2017. [\[Link\]](#)

• Misc. Methodology

- S Ghosh, **G Ruiz**, B Wales. "Subsampled data-based alternative regularized estimators." **Journal of Data Science**, 2020.

RECENT WORK EXPERIENCE

Data Science Intern

Digital Experience, Adobe Inc.

Summer 2019, Summer 2021

San Jose, CA & Remote

Teaching Assistant

Department of Statistics

Spring 2018-Fall 2021

University of California, Los Angeles

Taught student discussion sections during 9 academic quarters.

Intern

Perception & Localization Group, The Charles Stark Draper Laboratory
National GEM Consortium Fellow

Summer 2017

Cambridge, MA

Research Intern

National Institute of Environmental Health Sciences

Summer 2016

Research Triangle Park, North Carolina

Club President

Highlander Statistics Society, ASA Student Chapter

June 2015-June 2016

University of California, Riverside

SKILLS

Tools and Languages R, Python, C++, Unix, Version Control

Communication English (native), Spanish (native)
